DURABLE

POWDER COATED DUCT
ROUND AND OVAL SPIRAL DUCT

Who says ductwork should be hidden? Installations ranging from high-end car dealerships to neighborhood sandwich shops are using exposed ductwork to make a statement. For years, the elements surrounding that ductwork have been factory coated or painted to a level that was unmatched by the average field painter. The ductwork always seemed to lack that same pop that the lighting cans, diffusers, and grilles had attained.

Powder coating your exposed duct can make it a focal point, creating an architectural statement. Making the duct system attractive was not an afterthought, it was the forethought.

Installing the duct system is a breeze with FläktGroup® SEMCO® signature manifolded systems where every piece and part is optimized for installation backed by the industry's leading expert on saving field labor. Standard options for matching screws and accessories make for a clean, eye-catching installation.

For your next duct application, make a sure you have the superior quality of FläktGroup SEMCO duct.

KEY BENEFITS

- Polyester finish - durably finished, ready to hang duct
- Single Wall or Dual Wall construction
- Matched accessories
- Multiple surface finishes
- Environmentally friendly – Zero VOCs
- UV resistant coating
- Durable, mar resistant surfaces
- Excellent corrosion resistance
- Excellent humidity resistance
- Aesthetically pleasing
- Easier to install
- Low air leakage
- Low pressure drop
- Lower air distribution cost
- LEED certified low emitting sealants

OPTIONS & ACCESSORIES

Architecturally exposed round and oval spiral duct is commonly used as an integral part of interior design. The reasons are clear: exposed spiral duct looks great, performs efficiently, offers a wide variety of design styles and is economical to install and operate.

Our 50+ years of manufacturing experience allows us to offer you the highest quality, best looking product on the market today. We'll give you the quality and performance you can rely on to design award-winning facilities.

Materials available

- Galvanized
- Aluminum
- Stainless

Wide range of sizes available

- Round spiral duct up to 120" in diameter
- Round longitudinal seam duct to 100+" in diameter
- Oval spiral duct in over 350 sizes with minors 4"-32"
- Oval longitudinal seam duct in any size
