ENGINEERED PERFORMANCE
SIMPLIFIED PROJECT MANAGEMENT
COST REDUCTION
TIME SAVING

A unique roll formed tongue-and-groove joint, PANL Solutions are fully enclosed and insulated and don't require screws in the vertical joints for structural rigidity.

In addition for having clear advantages over field-built alternatives, PANL Solutions also offers great advantages over competing panel products. Some competitors' panel products may require field insulation and up to four screws at the top and bottom of each joint.

FläktGroup® SEMCO™ delivers smart and energy efficient Indoor Air and Critical Air solutions to support every application area. We offer our customers innovative technologies, high quality and outstanding performance supported by more than fifty years of accumulated industry experience. The widest product range in the market, and strong market presence in 65 countries worldwide, guarantee that we are always by your side, ready to deliver Excellence in Solutions.
