FläktGroup®

SEMCO®

ROAD SHOW

COMING SOON
TO A CITY NEAR YOU

Get ready! The SEMCO® road show is making its way to your office.

Discover how to boost design efficiency with SEMCO's groundbreaking 3fficiency® System. Our expert team will guide you through the 3fficiency process and showcase real-time demonstrations featuring an operational chilled beam and Neuton® Pump Module. While our Pinnacle® unit is too large to fit in the van, you'll get an up-close look at the industry's only true angstrom wheel—the True 3Å®—along with our panels and the EC fans used in our units.
